

Surgery Services

Soft Tissue and Orthopedic Specialists

At Georgia Veterinary Specialists (GVS), we are proud to consistently provide surgical services to our patients utilizing the safest methods and state of the art equipment. We offer (and recommend) pre-anesthetic blood screening to ensure your pet is physically able to withstand the surgical procedure. Anesthesia is induced and maintained with the safest anesthetic medications possible. Your pet is constantly monitored with instrumentation designed to alert the surgeon and technician to even the slightest change in condition. Your pet's safety and well-being are first and foremost at GVS!

Meet Our Surgeons

All surgeons at GVS are board certified Diplomates of the American College of Veterinary Surgeons.

Dr. Duval

Julie Duval, VMD, ACVS

Dr. Duval joined our surgical team in 2000. She received her VMD degree from the University of Pennsylvania College of Veterinary Medicine in 1990 and went on to complete her residency in surgery at the University of Georgia. Prior to coming to GVS, Dr. Duval worked in referral practices in South Carolina and Missouri. Dr. Duval's areas of special interest are portosystemic shunts, reconstructive surgery and antibiotic use in surgical procedures.

Dr. Cross

Alan Cross, DVM, ACVS

Dr. Cross joined our surgical team in 2003. He received his DVM from University of Tennessee. Dr. Cross completed his internship and residency in surgery at the University of Georgia. He was on faculty at the University of Florida for five years before coming to GVS. His areas of interest are all orthopedic conditions with his expertise in arthroscopy and the TPLO procedure.
